Office Action Summary

Art Unit: 1616

Claims 1-5 are pending.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(1) The proportions recited in lines 3-5 of independent claim 1 are confusing. It is unclear how the two proportions are related.

(2) In the last line of claim 1, is the 10 percent by weight, volume, mole, or some other basis?

(3) Claim 1 recites process steps without the requisite product-by-process ~~and~~ transitional phrase such "produced by....".

Claim 2 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 2 cannot properly depend from claim 1 and not use ammonium sulfate, a required ingredient in claim 1.
